

We pride ourselves on bringing you a diverse and ever growing assortment of top quality items inspired by the beauty of America, and the many people who call it home. All of our products are designed and produced in the United States from our facility in Huntington Beach, California allowing for quick turnarounds on your order.

Stickers

CAR STICKERS

Printed on heavy 6 mil Vinyl, using full-color CMYK UV Ink, and laminated with a 2 mil polyester laminate adding another layer of protection to our stickers are ideal for out outdoor use. Our stickers are rated to last up to 5 years in the great outdoors.

BOTTLE STICKERS

A more flexible product, our Bottle Sticker decals are printed using the same scratch resistant ink and heavy vinyl, without the laminate. This gives the stickers the pliability to be placed on round surfaces like bottles, helmets, and hard-shell cases.

Magnets

BADGE MAGNETS

These are your classic refrigerator magnet, and the most buyer friendly option we offer. Ideal starting point for developing your magnet catalog.

TEXTURED & SHAPED PLASTIC MAGNETS

Once your customer has one of these magnets in their hands and feels the texture, it's as good as sold. Printed on 2mm PVC Material with durable CMYK UV Ink, these magnets are cut in a variety of shapes and textured adding a 3D element and satisfying tactility to the product.

FLEX. MAGNETS

The boldness and durability of our stickers, without the permanence. Printed on 30 mil flexible magnet material with CMYK UV Ink, and cut to shape, Flex Magnets are great for vehicles, and as promotional calenders.

Corner Decal Series

Make your view all the more special with our Corner Decal Series. This collection of designs fit perfectly within the corners of car or home windows, framing your world with mermaids, geckos or bears.

DON'T BE FOOLED by stickers in a bag

Plastic bags disguise the quality of the stickers, obstructing your ability to feel the difference. They also fill our landfills and oceans with needless plastic.

Quality & Craftsmanship

Designed to look good on the rack as well as in use, Stickers By Sandstone stickers are printed on heavy Vinyl, using full-color CMYK UV ink, and are laminated with a Kevlar grade polyester laminate. This is an expensive process so makers of lower quality or imported stickers need to conceal this by bagging them.

The care given in the design and manufacturing of our stickers ensures they resist curling while on display, and are rated to last for up to 5 years in the harsh conditions of the great outdoors. This is a quality your customers will notice as soon as they touch one of our stickers; they touch it, they buy it!

Test the quality for yourself!

When you find a bagged sticker, take it out of the bag and feel how they differ from a Stickers By Sandstone sticker.
